

Join us for these fun and exciting camps this summer!

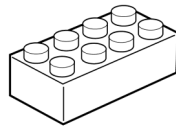

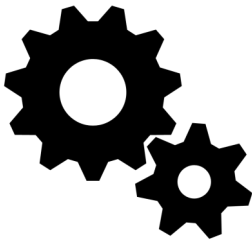

Bricks 'n Gears Jr Camp

Learn how gears, levers, pulleys, and belts work, then build some of your own. At the end, you get to keep your set of bricks and instructions for more fun at home!

For students completing grades 1-4
When: Tuesday, July 11—Friday, July 14

9:00—Noon

Cost: \$125.00

Did You Know... Machines typically use two or more gears of different sizes.

Robotics Space Camp

Program a robot to complete different missions such as retrieve a rover, launch a rocket, and deploy solar sails. No experience required.

For students completing grades 4-8
When: Monday, July 24—Friday, July 28

9:00—Noon

Cost: \$200.00

Did You Know...
The sun is so large that 1 million Earths could fit inside!

Visit us online at www.granddial.com/express-create-grow/summer-camps for more information and to register. Unlike outer space, our space is limited. Sign up now!
