### **How Do I Properly Use YouTube's Parental Controls?**

YouTube is the second most popular search engine with over 2 billion searches daily! Kids love it, but parents typically don’t. There are some steps parents can take to enable a safer search experience for their kids, which is very important. Make no mistake - there is an abundance of inappropriate and downright pornographic content on YouTube. [Please read this blog post that includes detailed, step-by-step instructions](#) for protecting all types of internet-ready devices from junk on YouTube!

### **What Are the Four Most Dangerous Places for Kids to be Online?**

The Protect Young Eyes team has over four decades of youth ministry experience and has found that there are four places where internet risk skyrockets. Do you know what they are? You might be surprised. [Please read more about them here](#) so that you can make sure the right controls are in place. When parents know the risks, they can do the right things to protect their kids.
